Introduction

Holistic detective with an unwavering commitment to exploring the fundamental interconnectedness of all things. I combine an unconventional investigative approach with a keen intuition for improbable solutions, engaging confidently with the realms of the paranormal, temporal anomalies, and missing cats.

My experience spans peculiar cases involving time travel, quantum uncertainty, and reluctant clients. I thrive in unpredictable environments, leveraging resilience and a penchant for eccentric problem-solving to uncover answers that others overlook.

Work Experience

Present	Founder & Chief Detective	Holistic Detective Agency
	Established and operated a one-of-a-kind agency dedicated to solving mysteries via the interconnectedness of all things.	
	- Successfully resolved cases involving missing cats, haunted computers, and spontaneously appearing sofas. - Developed proprietary "luck-based" investigative techniques and pioneered random taxi route methodologies.	
2018		
2018	Quantum Cat Retrieval Specialist – Freelance	Various Clients
	- Assisted clients in locating pets lost to quantum uncertainty and other improbable circumstances. - Collaborated with physicists and veterinarians to develop the Schrödinger Protocol for ambiguous animal recovery.	
2017		
2017	Temporal Anomaly Investigator – Contractor	St. Cedd's College
	- Investigated and contained time loops, paradoxes, and chronologically misplaced furniture within the college precincts. - Published "A Holistic Guide to Sofa Extraction from Impossible Spaces" (unofficial circulation).	
2015		
2016	Unconventional Technology Consultant – Part-Time	London
	- Provided troubleshooting for haunted answering machines, sentient software, and vintage electronics. - Implemented holistic diagnostics, improving technology-cohabitation harmony by 47%.	
2014		

Education

2014	MSc in Applied Holistic Sciences	University of Cambridge
	Specialised in advanced interconnectedness analytics, time anomaly mitigation, and cross-dimensional case studies.	
	- Research thesis: "The Practical Applications of Quantum Uncertainty in Everyday Detection." - Elected chair of the Society for Random Investigations and Improvised Solutions.	
2015		
2011	BA (Hons) in Holistic Detection	University of Cambridge
	Developed a rigorous understanding of the fundamental interconnectedness of all things.	
	- Focus on quantum paradoxes, time travel theory, and sofa geometry. - President of the Pizza Appreciation Society, founding member of the Parapsychology Club.	
2014		
2008	A-Levels	Long Road College
	Philosophy, Physics, and Strange Occurrences	
	- Achieved top marks in unorthodox reasoning and creative logic. - Winner of the "Most Unlikely Solution" award (two consecutive years).	
2011		
	Organised the annual Quantum Cat Hide-and-Seek competition.

Awards

2021	Lifetime Achievement in Holistic Detection	Self-Awarded
2018	Holistic Detective of the Year	British Association of Unorthodox
2020	Outstanding Coincidence Resolution	Society for Applied Serendipity
2015	2 nd Place, Annual Sofa Relocation Challenge	Royal Society of Furniture Physics

Other Certifications

2013	Certified Interdimensional Liaison	UK Council of Multiversal Affairs
	A*(a*) grade	
2018	Chronological Irregularity Investigator	Temporal Anomaly Bureau
	Registration valid until January 3rd, 2318.	

Association and Voluntary Work

2020	Chair of the Board	Sofa Displacement Prevention Society
	Leads strategic initiatives to address and investigate the mysterious phenomena of sofas becoming inexplicably stuck in stairwells and hallways across the UK.	
2019		
Present	Temporal Confusion Helpline Advisor	Society for Safe Timekeeping
	Offers comfort and pragmatic (if peculiar) solutions to individuals experiencing minor chronological disturbances.	
	• Provides advice on time loops, déjà vu, and misplaced temporal objects.	
2020		
2018	Midnight Ghost Walk Guide	Camden Borough Historical Society
2016	Led educational (and occasionally interactive) tours on local hauntings and spectral residents.
